

MM460

# MetalMaster 20

compact 4'6" foot long model with 20" throat depth

\*shown with optional USA1EZ stand

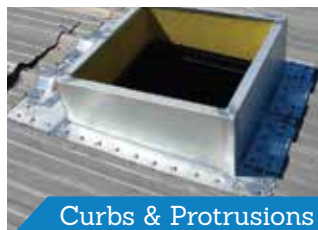

## PERFECT ULTRA-PORTABLE MULTI-USE BRAKE

Bay Windows

Chimney Flashing

Curbs & Protrusions

Dormers & Trim

The MM460 is simply a compact, easy to transport version of our popular MetalMaster 20 brake. Utilizing the unique to Van Mark cam-lock system as well as our AccuTrack accessory rail system that allows for expanded capabilities by pairing it with our line of brake mounted accessories.

### Ultra-Portable Compact Brake

Ideal for bending chimney, skylight and roof vent flashings.

### Versatile And Full Featured

Incorporates all the features you expect from a MetalMaster brake.

### Even Does Windows

Works great for small window repairs and installations.

### Designed For Common Materials

Perfect for trim coil or gutter coil up to .032", but also works great for soft copper, and light gauge steel.

## Van Mark TrimCutter

The TrimCutter is hands-down our most popular accessory for our cam-locking brakes. Its design leverages our Accu-Track accessory rail system for precise factory edge cuts on most common construction sheet materials up to 24 gauge grade D painted panels. The TrimCutter is convenient and reliable and a tool that will easily save you time and effort every time you use it.
